

# The Aesthetic Surgery Center & Face Spa

11181 Health Park Blvd | Naples, Florida 34110 | 800.594.7472

February 2006

## RENAISSANCE REVIEW

Imagine the Look, Create the Dream...

Happy Valentine's Day! Pamper your loved one with a special at our Face Spa.

The Aesthetic Surgery Center is proud to introduce two of the latest advances in skin care to our armamentarium: The Arctic Laser Wash and The Broadband Light BBL technology. Read below for more information...

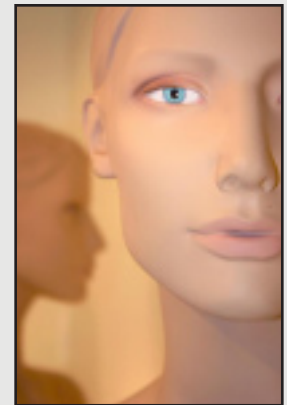

### Introducing the ARCTIC LASER WASH!

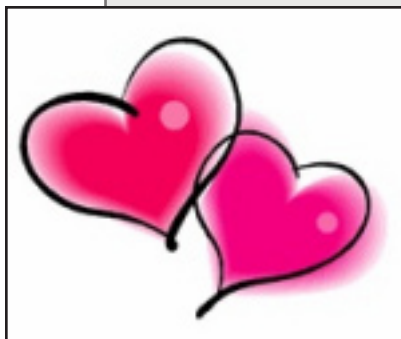

This is a partial epidermal peel that can successfully treat brown spots, age spots, scars, and fine wrinkles. Topical anesthetic cream and a cool air chiller are used to minimize discomfort. The healing period (3-7 days) consists of redness followed by peeling. You will experience noticeably smoother skin, with a more even consistency and pigmentation.

### Broadband Light Technology Comes to Naples!

The light energy delivered by the BBL will gently heat up the upper layers of your skin. By carefully using the appropriate wavelength or filter, Drs. Agarwal and Maloney will use the BBL to target age spots, small facial veins (telangiectasias), brown spots, and rosacea. Because there is no damage to the outermost layers of your skin, there is virtually no down-time. The most popular treatments are for the face, neck, upper chest, back of the hands, arms, and legs. On average, four treatments spaced 2 to 4 weeks apart are necessary to produce the desired results.

### Surprise Your Sweetheart With A Valentine's Day Gift Certificate

Give your sweetheart the perfect pampering pleasure. As our gift to you, The Face Spa is offering Two for One Gift Certificates for facial treatments designed exclusively for you and your special someone.

Call Sharon or Brandi at The Face Spa (239) 594- 9100 for details.  
Happy Valentine's Day!!
