April 2008

RENAISSANCE REVIEW

Imagine the Look, Create the Dream...

Perk up with Injectable Enhancements Before Heading North!

April is the perfect month to have your wrinkles treated with Injectables by our Board Certified Facial Plastic Surgeons.

Botox, Juvederm, Restylane, Radiesse and Artefill are quick-fix treatments with low down-time.

Wash away your sun damage with combination office laser treatments!

The ideal office based laser treatment to treat sun damage would address brown spots, fine lines, and surface texture irregularities. Using Broadband Light (BBL) to bring brown spots to the surface, and combining this with an Arctic Laser Wash to remove sun damaged skin, you can markedly improve your skin's appearance and health with an office based treatment.

Follow your progress with our special UV camera photography, before and after your laser treatment. Call us for more information or to schedule your individual consultation. The package price for a combined Arctic Laser Wash with BBL on the same day is \$2400 (\$400 off of the usual \$2800 fee for both procedures).

Complimentary Microdermabrasion with Any Injectable Treatment

During the month of April 2008, you will receive a complimentary microdermabrasion with one of our aestheticians, Sharon or Brandi, if you have an injectable treatment performed. This includes Botox, Collagen, Restylane, Juvederm, Radiesse, or Artefill.

Microdermabrasion is a wonderful skin rejuvenation treatment that will restore your skin's natural glow, and exfoliate your skin. Call today to take advantage of this \$200 value.

Call Sharon or Brandi, our licensed aestheticians, for more information at 239-594-9100.
