RENAISSANCE REVIEW

Imagine the Look, Create the Dream...

In-Office Seminar and Live Demonstration!

July 11th, 6 to 8pm

Dr. Agarwal will be hosting a seminar on Tuesday July 11th, from 6 to 8pm. He will provide information about "Low Down Time Aesthetic Enhancements." Topics covered will include Botox; Injectable Fillers such as: Restylane, Radiesse, Juvederm, and Collagen; Broadband Light technology; and the Arctic Laser Wash. The computer presentation will be followed by patient demonstrations of Botox injections and the Arctic Laser Peel.

This is the perfect opportunity to learn what these non-invasive treatments can do for you. Please RSVP by calling the office at 239-594-9100 if you would like to attend. Light refreshments will be served

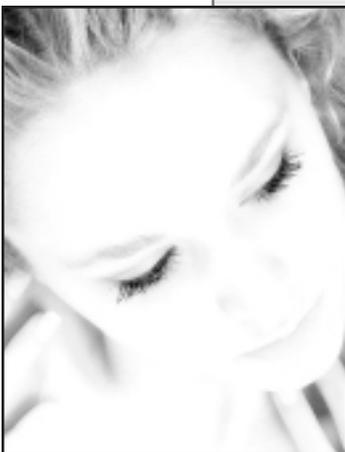

Juvederm gets FDA approval!!

On June 5, 2006, the FDA approved the Juvederm gel family of soft tissue fillers for facial wrinkles and folds. It is a hyaluronic acid derivative, similar to Restylane, which will have three consistencies available. This will allow Drs. Agarwal and Maloney to target wrinkles and folds of various depths. Juvederm has been used extensively in Canada and Europe, and our surgeons at The Aesthetic Surgery Center will be ready to inject it as soon as it is available to physicians in the United States.

This is the latest soft tissue filler to join our armamentarium, which includes Botox, Restylane, Radiesse, and collagen. Check out our website for more!

Flap Those Luscious, Fuller Lashes!

Eyelash Extensions at the Face Spa!

Eyelash extensions look gorgeous, are incredibly long lasting and feel weightless to the eyes. Unlike false eyelashes that are attached to the eyelid, the eyelash extensions are affixed to individual eyelash hairs, one at a time. The look is very natural and will enhance your beauty.

Resistant to water, they last up to three months on average, so you have beautiful lashes any place and any time. Different lengths and colors are available to customize your personal look. Call Sharon to set up your appointment!
