Massive Weight Loss

Following Gastric bypass many patients may be left with excess skin that interferes with comfort and hygiene following massive weight loss. The excess skin can be a daily reminder of the morbid obesity and prevent patients from adopting a more positive body image.

For many, body contouring completes the journey from obesity and the body contouring surgery may have just as profound an effect on their lives as the weight loss itself. Dr. Boemi's extensive surgical experience enables him to be quite comfortable in all areas of the body, and to perform procedures beyond the scope of traditional plastic surgery. Please click below to review Dr. Boemi's credentials and his extensive before and after photo gallery.

Jane Iredale Botanical Brush Cleaner is an Effective Insect Repellant

Love summer, but hate mosquitoes? You are not alone! Typical bug repellants contain a chemical called DEET, which can cause medical problems.

Jane Iredale Botanical Brush Cleaner is a natural repellant (no DEET) that is very effective. Just spray some on your clothing before you head outdoors and you'll see what we mean! Now available at the Face Spa at the Aesthetic Surgery Center.
