RENAISSANCE REVIEW

Imagine the Look, Create the Dream...

Signature Skin with new airless pump!

Signature Skin is a unique, therapeutic grade skin care product designed by Dr. Maloney to protect and rejuvenate your skin. It is fragrance and plant oil free. The most active soy isoflavones are dosed in optimum concentrations and then wrapped in liposomes to ensure skin penetration. Aloe, Hyaluronic acid and Vitamin E are combined with amino acids to produce an amazing non greasy moisturizing cream that can be easily worn with make-up to create ultra smooth and soft skin.

For optimum results, use Signature Skin twice a day or more after washing the face with an effective glycolic acid cleanser. Signature Skin can be used as frequently as necessary to replace other moisturizers. It has now been re-packaged with an airless pump delivery system

Scar Revision.

Our double board certified facial plastic surgeons, Dr. Maloney and Dr. Agarwal, are skilled in the art of scar revision surgery. Disfiguring scars from prior tumor resection, accidents, mole removals, etc... can affect one's self esteem and confidence. Other physicians routinely refer patients to our physicians for their expertise.

Using advanced facial plastic surgical and laser techniques, our surgeons have helped countless patients regain their confidence by minimizing the appearance of disfiguring facial scars.

Aestheticians performing the VI Peel at the Face Spa

The Vi Peel contains a synergistic blend of salicylic acid, phenol, 15% TCA (trichloroacetic acid), 0.03% retinoic acid, Vitamin C and minerals. It is suitable for all skin types and it improves the tone, texture, and clarity of your skin. The Vi Peel is beneficial for acne, stimulating the production of collagen, and softening superficial lines and wrinkles. There is little downtime and there are significant results.

SkinCeuticals product line added to our Face Spa!

The Aesthetic Surgery Center & Face Spa is now offering SkinCeuticals skin care products in addition to our MD forte line. The hallmark of the SkinCeuticals line is Phloretin CF, a Vitamin C product, which protects against free radicals and is an integral component of collagen production. The result - a strengthened support structure on the inside and a more youthful, firm, radiant appearance on the outside.

In addition, we are featuring SkinCeuticals Physical Fusion UV Defense SPF 50 Sunblock, which is a highly effective sunblock with a sheer filmless tint.
