### VI peel special extended through August 2013!

#### Special valid through August 2013

Due to overwhelming popularity, the mother's day special on the VI peel has been extended through August 31, 2013! This peel contains a synergistic blend of salicylic acid, phenol, 15% TCA (trichloroacetic acid), 0.03% retinoic acid, Vitamin C and minerals. It is suitable for all skin types and it improves the tone, texture, and clarity of your skin. The VI Peel is beneficial for acne, stimulating the production of collagen, and softening superficial lines and wrinkles. There is little downtime and there are significant results.

Now through August 31, 2013, if you undergo a VI Peel by one of our licensed aestheticians (a \$300 service), you will receive a complimentary facial treatment (a \$95 value). The ideal is to have the facial one week after the VI Peel in order to help exfoliate your skin after the peel. Please call 239-594-9100 to schedule your next treatment!

### Dr. Agarwal delivers presentation to pre-med students at CSN

In conjunction with Mr. Jason Young, Community Education and Training Manager for the Shelter for Abused Women and Children, Dr. Agarwal gave a presentation to the Anatomy and Physiology class at the Community School of Naples on April 23, 2013.

Dr. Agarwal presented his path to becoming a facial plastic and reconstructive surgeon, demonstrated his work with facial trauma and abuse victims, and described his involvement with the Shelter in helping to develop the Shelter's Medical Responder program. In the words of one student, "The presentation on facial reconstruction, to me, showed a field of medicine with multiple applications, from aiding the injured to just helping someone feel normal again. I found a more empathetic side of medicine from my experience hearing him."
