RENAISSANCE REVIEW

Imagine the Look, Create the Dream...

The Perma Facial Implant Offers Permanent Lip Enhancement!

Our trial patients who underwent Perma Facial Implant placement in their lips are all thrilled! This is a permanent lip implant designed to restore fullness to genetically thin or aging lips. The implants feel natural and there is no limitation of smiling, pursing the lips, kissing, or chewing. For those of you who have had repeated injectable fillers in the lips, the Perma Facial Implant offers a long term definitive solution.

Our surgeons are excited to offer this 30 minute procedure, performed in the office, under local anesthesia. If you would like to find out if this procedure is right for you, please call 239-594-9100 to schedule a consultation.

Holiday Injectable Specials!

With the holidays coming up, this is the perfect time to take advantage of our holiday injectable special. Until December 31st, 2009, you will receive a free facial with one of our licensed aestheticians if you have any injectable performed.

This could apply to Botox Cosmetic/Dysport or Injectable fillers such as Restylane, Juvederm Injectable Gel, Radiesse, Sculptra or Artefill. Take advantage of this offer to look your best when you face your friends and family this holiday season.

The 2009-10 Beachside Seminar Schedule is online. Please join us!

Our plastic surgeons offer several educational and informative seminars highlighting the contemporary approaches to cosmetic and plastic surgery of the face and body at The Ritz-Carlton Beach Resort in Naples, Florida and also at the Marco Island Marriott Hotel. A lite lunch is provided.

To attend one of these FREE informative seminars, visit our website and fill out the online form or call our office at 239-594-9100.

RENAISSANCE REVIEW

Imagine the Look, Create the Dream...

Hair Transplants Now Performed in the Office!

Having performed this procedure at Doctors Outpatient Surgery Center over the past 4 years, Dr. Agarwal is now performing follicular unit hair grafting in the office. This reduces the facility fee cost considerably, which translates into better pricing for the patient.

This method of hair restoration involves transplanting single, two, and three hair follicular unit grafts into areas of thinning scalp. Because of the microscopic grafts, results are natural and undetectable. Please call 239-594-9100 for your consultation for hair restoration.

Sculptra Aesthetic Gains FDA Approval for Cosmetic Indication!

Sculptra Aesthetic is now FDA approved for nasolabial folds and other facial wrinkles. It is a stimulatory filler that works by stimulating collagen production in your skin gradually.

On average, three treatment sessions are required, each spaced one month apart, with results lasting up to two years. This is an especially good option for volume deficient faces.

\$50 Botox Cosmetic Rebate Good Through December 31, 2009

New \$50 rebate on a BOTOX® Cosmetic treatment—limited-time offer
