RENAISSANCE REVIEW

Imagine the Look, Create the Dream...

Drs. Maloney and Agarwal Selected to Participate in the JET TRIAL!

A multicenter trial to evaluate Juvederm treatments

Juvederm is the latest addition to the injectable filler armamentarium. It received FDA approval in June of 2006, and it will be released to treating physicians in January of 2007.

Prior to its general release, select physicians have been chosen to participate in the JET Trial (Juvederm Experience Trial). We are proud to announce that our skilled physicians are among those chosen! Drs. Maloney and Agarwal will be treating 6 patients who have had Restylane to the nasolabial folds 6 months to 1 year ago, and following them over the ensuing 9 months. Because of their selection, the physicians at the Aesthetic Surgery Center will be among the first to offer Juvederm treatments in Southwest Florida!

Get Ready for Our Informative Seminars!

Dates are available on our website, click below

Between October and April, Richard W. Maloney, M.D., F.A.C.S. and Anurag Agarwal, M.D., offers several educational and informative seminars on facial cosmetic surgery. These seminars discuss the face-lift procedure and the Finesse Rhinoplasty (including lots of before and after photos) and the latest in Anti-Aging Medicine - like Botulinum Toxin injections (Botox), Laser Wash, The Face Spa, skincare maintenance, and much more! This is the perfect way for you to get to know our practice.

The seminars will be run by Dr. Maloney at the Ritz- Carlton (Beach Resort) and by Dr. Agarwal in our state-of-the-art office at the Aesthetic Surgery Center. The in-office seminars will also feature a live demonstration of the Arctic Laser Peel by Dr. Agarwal. In addition, you can have your photographs taken in the office, which will be morphed with our sophisticated computer imaging software at a later time. These morphed images will be available for review in our office at a separate appointment.
