RENAISSANCE REVIEW

Imagine the Look, Create the Dream...

Artefill Now Available!

Our facial plastic surgeons, Drs. Agarwal and Maloney, have been injecting Artefill for permanent wrinkle enhancement for the past 2+ years. It was FDA approved three years ago as the first and only permanent injectable wrinkle filler.

The facial injectable has been relaunched by Suneva Medical. It is still the same safe, tested, and long lasting wrinkle filler indicated for nasolabial folds (smile lines), but not the lips. Artefill requires a skin test to rule out allergy one month prior to injection and is usually injected in two treatment sessions, spaced out 3 months apart. Please call our office to schedule your Artefill consultation and skin test.

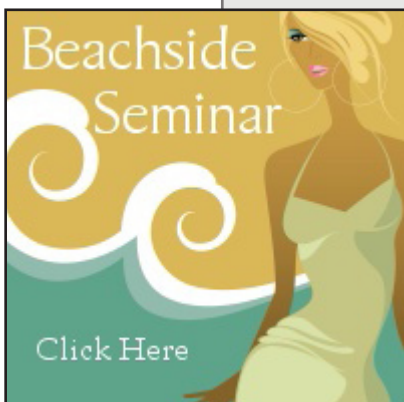

DYSPORT : The New Botulinum Toxin

Take Advantage of the Introductory \$75 Rebate!

Dysport is now available at the Aesthetic Surgery Center. It is Botulinum Toxin type A, which is the same subtype of Botulinum Toxin found in Botox Cosmetic®. The product has been used in Europe for over 10 years. It was recently FDA approved for cosmetic use in the United States.

Reports suggest that Dysport may last longer and work faster than Botox Cosmetic, but we will wait for longer term follow-up to determine this. In the interim, call our office to schedule your appointment and take advantage of the introductory \$75 rebate from the manufacturer.

The 2009-10 Beachside Seminar Schedule is online. Please join us!

Our plastic surgeons offer several educational and informative seminars highlighting the contemporary approaches to cosmetic and plastic surgery of the face and body at The Ritz-Carlton Beach Resort in Naples, Florida and also at the Marco Island Marriott Hotel. A lite lunch is provided.

To attend one of these FREE informative seminars, visit our website and fill out the online form or call our office at 239-594-9100.
