RENAISSANCE REVIEW

Imagine the Look, Create the Dream...

LaserWash away your summer sun damage!

Now that summer is almost over, it's time to wash away sun damage from your skin. A LaserWash or BBL (Broadband Light) treatment offers the ideal solution.

A LaserWash procedure wipes away outer layers of sun damaged skin that contain brown spots, while also helping with fine lines. A BBL procedure is an office based procedure designed to specifically target blemishes in the skin and restore a smooth complexion. Call 239-594-9100 to schedule your consultation to see which procedure will get your skin back in shape for season!

Cooperative Role of the Dermatologist and Facial Plastic Surgeon

Skin cancer is the most common form of cancer in the United States. Dermatologists are experts in diagnosing and treating skin cancer.

Skin cancers removed from the face and neck often leave significant, cosmetically unacceptable scars. In order to avoid this, consider asking your dermatologist to remove your skin cancer, but having one of our plastic surgeons repair the defect, the same day as the removal. This optimizes your rate of cure AND the chances of having the least noticeable incision lines possible. A variety of insurance plans are accepted.

Last month to take advantage of our summer injectable specials!

Now Through September 30, 2010

This is the last month to take advantage of our summer specials, good through September 30, 2010. When you have a Botox Cosmetic treatment OR an injectable filler performed, you will receive a free facial treatment (\$95 value) with one of our licensed aestheticians.

If you have a Botox cosmetic treatment AND an injectable filler on the same day, you will be able to upgrade your free facial to a free microdermabrasion (\$150 value) treatment!
