## Botox for men: A Popular Anti-Aging Choice...

Botox for men is a growing trend in clinics nationwide. While Botox and other injection treatments have been a popular anti-aging choice for women over the past two decades, men haven't been as enthusiastic about anti-aging, at least publicly. Slowly, however, the stigma is being lifted and more men are discovering that Botox treatments can help them fight signs of aging.

## Please join us for our first Ritz Carlton seminar of the season!

Please join us at the Ritz Carlton beach resort in Naples on Wednesday, November 5, 2014 for an informative seminar about contemporary approaches to restore and enhance the face. Our double board certified facial plastic surgeons, Dr. Agarwal and Dr. Maloney, will review topics such as endoscopic facelifts, laser eyelid surgery, finesse rhinoplasty, the low down time Uplift procedure,

laser wash resurfacing, hair restoration, and injectables. Please call 239-594-9100 to RSVP or visit our website by clicking the link below...

## **The NEW Megapeel EX Gold Series microdermabrasion machine arrives at the Aesthetic Surgery Center!**

The Megapeel EX Gold series microdermabrasion machine is the most recent acquisition at the Aesthetic Surgery Center. Microdermabrasion is a treatment that has been offered for several years at our practice. It is an effective and simple form of mechanical exfoliation, in which aluminum oxide crystals are used to remove the outer layer of dead or damaged skin cells, revealing more youthful skin. Microdermabrasion is a non-invasive treatment designed to improve the overall texture, tone and clarity of the skin while restoring the skin's elasticity. The repeated process of exfoliation stimulates an increased level of collagen and elastin, which improves your skin's appearance. All skin types benefit from microdermabrasion, which can improve the appearance of fine lines, acne scars, hyperpigmentation, chicken pox scars, brown spots, large pores and other skin imperfections.

While the crystal form of microdermabrasion remains the gold standard, the Megapeel EX Gold series device enables our aestheticians to perform crystal-free microdermabrasion with a diamond hand piece. This is well suited for sensitive, fragile skin because the exfoliation is less aggressive and more gentle. Our aestheticians will help guide you as to which microdermabrasion technique is most appropriate for your skin type.

**Bring a friend and enjoy the new Trifecta Facial! Offer good through September 30, 2014.**

For the month of September 2014, if you bring a friend who is new to our practice for a Trifecta Facial, you will receive a complimentary Trifecta Facial if performed on the same day (\$185 value).

The Trifecta Facial was designed by our physicians and aestheticians at the Aesthetic Surgery Center as a triple age defense treatment (Dermaplaning, microdermabrasion, vitamin C firming masque).

1. First, dermaplaning is done to remove unwanted hair and peach fuzz.
2. Second, microdermabrasion is performed to exfoliate dead skin cells and create new cell turnover, coupled with a 20% glycolic peel to lower the pH of the skin and tighten pores.
3. The treatment is finished with a vitamin C firming masque to combat the effects of sun damage and reveal glowing, more youthful skin.

Please call us at 239-594-9100 to experience the new therapeutic Trifecta Facial!
