## RENAISSANCE REVIEW

**Imagine the Look, Create the Dream...**

**Aesthetic Surgery Center introduces Kybella to Naples, the first and only FDA approved injectable to dissolve fat under the chin, known as the "double chin."**

Kybella is an FDA-approved injectable cosmetic treatment used to eliminate the fat that causes double chin. As the only non-surgical method for addressing this common cosmetic problem, Kybella is quickly growing in popularity alongside Botox and other injectables. This treatment involves injecting a synthetic version of bile salts that the liver naturally makes to break down fats. Kybella actually destroys the fat cells, which the body

naturally eliminates on its own following each session. Kybella is administered over a series of sessions that vary in length based on the extent of treatment needed for the individual. Please call us at 239-594-9100 for a consultation with any one of our plastic surgeons, to determine if this is a good option for you.

## **Dr. Gill gives birth to a beautiful baby girl, Kareena!!!**

### **Friends**

We welcomed our dear daughter Kareena on August 20th, 2015. We feel truly blessed. I am enjoying these precious moments with my baby girl and her two older brothers who are enamored with their little sister. Thank you for all your well wishes and support over the past few months. I look forward to seeing everyone soon,

Sincerely

Dr. Gill
