## RENAISSANCE REVIEW

**Imagine the Look, Create the Dream...**

### **Eyelash extensions now offered at the Aesthetic Surgery Center!**

The Aesthetic Surgery Center is proud to introduce a new service to our practice, Minky's Eyelash Extensions! Eyelash extensions are used by women to dramatically enhance their look. Technically, eyelash extensions are the process of isolating an eyelash hair and applying an extension to that individual hair. The extensions are applied to the hair, and do not touch the eyelid skin at all. Eyelash extensions can give your lashes a full, long, dark, curled look with absolutely no mascara! After the first initial set is applied, maintenance includes coming in every 2-4 weeks for "fills" to replace any lashes that are loose or have come out due to the natural lash shedding process.

Natural Set \$250

Glam Set \$295

Please call 239-594-9100 to schedule your eyelash extensions with Brittany Napior, one of our licensed aestheticians!

**The Aesthetic Surgery Center is closing the loop on breast cancer!**

## Breast Reconstruction Awareness Day

closing the loop on breast cancer

October marks Breast Cancer Awareness Month, an international health campaign whose goal is to raise awareness of breast cancer in hopes of early detection. While many are aware of breast cancer and methods of early detection, there is a significant gap in knowledge that exists regarding breast reconstruction. Breast Reconstruction Awareness Day was first founded in 2011 in hopes to increase awareness of breast reconstruction, improve access to care and fund ongoing breast reconstruction research.

Studies clearly show that breast reconstruction has a positive effect on quality of life for women following mastectomy. Unfortunately, less than a quarter of women know the wide range of reconstruction options available to them and even worse, some women aren't even offered reconstruction. The goal of the BRA DAY initiative is that all women will be offered information about the options for breast reconstruction surgery and be provided access to breast reconstruction in a safe and timely manner.

October 21st, 2015 marks the fourth annual Breast Reconstruction Awareness Day USA.

Here in Naples, Dr. Gill hopes to educate, raise awareness and improve access to breast reconstruction for patients being treated for breast cancer. Join Dr. Gill and the Aesthetic Surgery Center Staff in supporting Breast Reconstruction Awareness Day by wearing your BRA Day Ribbon. Through education and awareness we hope to help "close the loop on breast cancer."

**As summer comes to an end, refresh your skin with a series of Advanced Corrective Peels with microdermabrasions!**

Say farewell to sun-damaged skin by refreshing your skin with a series of Skinceuticals Advanced Corrective Peels and Microdermabrasion treatments. The peel solution includes salicylic acid, lactic acid and resorcinol. The peels are designed to tighten and firm the skin, and peel away outer sun damaged skin layers. This helps to restore a firm and more youthful complexion. Until November 30, 2015, we have a special price of \$1,000 for a series of four peels and two microdermabrasion treatments. (Regular price \$1,300). This special offer cannot be combined with any other office specials or promotions.

Please call us today (239-594-9100) to schedule your series of treatments and let us help you put your best face forward!!!!

## **The Aesthetic Surgery Center is proud to welcome Caitlin, our new front desk coordinator!**

We are excited to welcome Caitlin to the Aesthetic Surgery Center family! Caitlin comes to us with 10 years of experience as a client liaison in the banking industry. With her former experience, she can accurately and efficiently contribute to client satisfaction by ensuring they receive the highest standards of service. She is happy to be part of our team and looks forward to building long-standing relationships with our patients.

Growing up in a military family, Caitlin has lived around the world, but Naples has been her home since 1996. She enjoys spending her free time with her husband and 3 children.

## Could an eyelid lift offer medical benefit?

With our eyes, we can do so many things—express emotions, engage in communication, absorb the world around us, and perform our everyday tasks. The eyes are very important for so many reasons, but our age can affect them in just as many ways. Beyond blurring or fading vision, age can also loosen the skin around the eyes, creating deep creases, sagging, and bags beneath the eyes. As you grow older, your eyes can begin to look tired, sad, or even angry, perhaps interfering with your relationships and other social interactions. In some cases, extreme sagging of the upper lids and brow can actually impair vision. Thankfully, an eyelid lift or blepharoplasty procedure can help you. While it might not be able to replace your reading glasses, it could certainly change your appearance and make things a little easier.
