**EXCLUSIVE  
ULTRASHAPE  
LAUNCH EVENT**

**March 2<sup>nd</sup>, 2016  
5:00 PM - 7:00 PM**

**Complimentary  
Hors d'oeuvres**

 **UltraShape®**

**Non-invasive Fat Reduction  
Using Focused Ultrasound**

[ultrashape.com](http://ultrashape.com)

With the myriad of non surgical fat reduction devices on the market, choosing one can be difficult. The ideal non invasive body contouring treatment should be:

- Painless
- Permanent
- Effective

The Aesthetic Surgery Center is the only provider of UltraShape™ in Naples and Marco Island, Florida. Unlike other nonsurgical devices that use heat or freeze fat, UltraShape™ is the only FDA approved nonsurgical fat reduction device that uses pulsed, focused ultrasound to destroy fat cells. Administered by our highly skilled, licensed aestheticians, UltraShape™ has the potential to reduce your waistline by up to 2 inches after 3 simple in-office treatments. Once each treatment is complete, you can immediately go back to your daily activities without downtime or restrictions.

Please call us at 239-594-9100 to reserve your seat at our UltraShape launch event on March 2, 2016. This is the perfect opportunity to learn about this exciting new technology.

Please join us at the Ritz Carlton beach resort in Naples on Wednesday, February 24, 2016 for an informative seminar about contemporary approaches to restore and enhance the face and body. Our plastic surgeons, Dr. Agarwal, Dr. Maloney, and Dr. Gill, will review topics such as the new AcuPulse™ Fractional CO<sub>2</sub> laser wash resurfacing, UltraShape® Ultrasonic non-surgical fat reduction, endoscopic facelifts, laser eyelid surgery, finesse rhinoplasty, the low down

time Uplift™ procedure, Thermi™ Radiofrequency skin tightening, hair restoration, injectables, breast enhancement, body contouring, and liposuction.

Afternoon tea will be offered from 2pm to 3pm, and the presentation begins at 3pm. Please call 239-594-9100 to RSVP or visit our website by clicking the link below...

## Introducing the newest technology in Laser Wash™ resurfacing....The AcuPulse™ Fractional CO<sub>2</sub> Laser!

We are excited to offer the latest generation of CO<sub>2</sub> laser technology to our practice! AcuPulse™ Fractional CO<sub>2</sub> laser resurfacing involves treating a fraction of a given skin surface area, instead of the entire area. By delivering focused microscopic columns of ablative energy, there are intact areas of skin left behind which help the skin heal faster than traditional resurfacing. AcuPulse's™ SuperPulse™ technology enables the deepest penetration with the lowest energy. This low energy requirement combined with interspersed areas of intact skin reduces patient discomfort, downtime and risk of side effects.

This exciting new technology means that you will achieve superficial and deep wrinkle improvement, blending of acne scars, and treatment of sun damage with minimal down time or discomfort. The procedure is performed in the office as a standalone procedure, or can be performed at the same time as a surgical procedure such as a facelift. Downtime ranges from 3-7 days, depending on the depth of resurfacing performed and the goals of the procedure. Mild pink discoloration may last another one week, which is significantly less than fully ablative procedures. The treatment may be applied to the neck using more conservative settings to achieve textural improvement.

Our plastic surgeons are well trained in laser technology and applications. They strive to offer cutting edge laser treatments that produce noticeable results. Drs.

Agarwal, Maloney, and Gill have carefully researched the various devices available. The AcuPulse™ fractional CO2 laser, Sciton Profile™ Erbium-YAG, and Ultrapulse 5000 CO2™ fully ablative laser enable them to offer the full spectrum of laser resurfacing options to their patients. During an individual consultation, one of our physicians will evaluate your skin, discuss your goals, and formulate an appropriate treatment plan to achieve your objectives using one of these state of the art laser machines. Please call 239-594-9100 for an individual consultation!
