A solution for women with uneven breasts...

It's difficult enough as it is to find a bra that fits right and feels pretty comfortable. When you have uneven breasts, getting a good-fitting bra becomes almost impossible, depending on the degree of asymmetry. If one breast is noticeably larger or smaller than the other, you might also feel self-conscious about your appearance.

There are temporary ways to correct uneven breasts, such as filling out one bra cup with padding. However, you might be looking for a solution that is longer lasting while still being simple. Depending on the size of your breasts and the results you want, breast augmentation or breast reduction can help create a more even look.

To learn more about your options for correcting uneven breasts, contact the Aesthetic Surgery Center to book an appointment with Dr. Kiranjeet Gill. She will discuss your goals with you and

tailor the procedure to help you meet them. Book your appointment at the Aesthetic Surgery Center, located at 1175 Creekside Pkwy, Suite 100, Naples, FL, by calling 239-594-9100.
