If you have stubborn belly fat that will not respond to diet or exercise, Ultrashape may be for you! This is an example of a patient of the Aesthetic Surgery Center:

Unlike other nonsurgical devices that use heat or freeze fat, UltraShape™ is the only FDA approved nonsurgical fat reduction device that uses pulsed, focused ultrasound to destroy fat cells. Administered by our highly skilled, licensed aestheticians, UltraShape™ has the potential to reduce your waistline by up to 2 inches after 3 simple in-office treatments. Once each treatment is complete, you can immediately go back to your daily activities without downtime or restrictions. The treatments are:

- Painless
- Permanent
- Effective

Our aestheticians (Katherine and Brittany) are experienced with the use of Ultrashape to achieve results such as this ASC patient!

Please call us at 239-594-9100 to set up your consultation with Dr. Gill to assess your candidacy for the procedure.
