

THE AESTHETIC SURGERY CENTER

ANURAG AGARWAL, MD, FACS | RICHARD W. MALONEY, MD, FACS | KIRANJEET GILL, M.D.

June 2017

RENAISSANCE REVIEW

Imagine the Look, Create the Dream...

Please support our practice and vote for Aesthetic Surgery Center!

Voting for the annual Southwest Florida Choice Awards takes place between May 28 and June 11, 2017. Please support our practice by voting for the Aesthetic Surgery Center in the Plastic Surgeon category under "Health and Well Being".

Voting takes place until June 11, 2017. Readers may vote online at www.swflchoiceawards.com (see link below). Only one ballot is allowed per email address and multiple votes from the same email will be disqualified.

If you feel that our plastic surgeons (Dr. Agarwal, Dr. Maloney and Dr. Gill) are the best in Naples, please vote!

Is there such a thing as a neck lift?

by Anurag Agarwal, M.D., F.A.C.S.

During the consultation process, I often find patients asking if there is such a procedure as a "neck lift". The reason is that sagging of the front of the neck is one of the first signs of aging and a telltale marker of one's age. It is no surprise that many patients often seek rejuvenation of the neck area.

The Uplift™ was specifically designed to treat looseness of the neck. Because the aging neck is almost always accompanied by jowl formation (loss of the defined jawline with settling of fat pads near the sides of the chin), the Uplift™ is the ideal procedure to refresh and lift these targeted areas. The benefits are primarily seen in the lowest one third of the face and neck, with no change to the upper 2/3 of the face. That means the face stays the same above the corners of the mouth, but improves below the corners of the mouth, all the way down to the collarbone.

For those who seek rejuvenation of the upper 2/3 of the face, the Uplift™ is commonly performed in conjunction with an endoscopic forehead lift and/or endoscopic midface lift.

Please check out our Uplift™ photo gallery to see examples of what this procedure can accomplish, by clicking on the link below. What separates our surgeons from the rest is the emphasis on RESULTS.

Liposuction myths and facts...

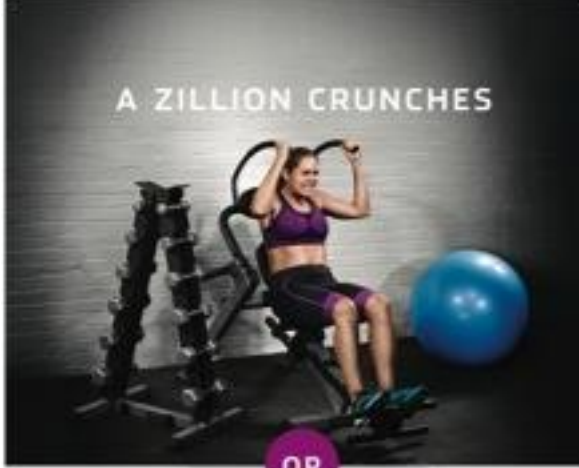

Fact or fiction? There's a great deal of misinformation out there when it comes to [liposuction](#): from who it's designed for, to the type of the results it can provide. If you are considering the surgery, it's important to be able to separate liposuction myths from reality before you decide to move forward.

Click on the link below to learn how to separate liposuction facts from myths. If you're at a healthy weight and are ready to say good-bye to stubborn, unwanted fat, contact the Aesthetic Surgery Center to book an appointment with Dr. Kiranjeet Gill (239) 594-9100.

UltraShape® Summer Special Through August 31, 2017!

A ZILLION CRUNCHES

OR

A FEW PULSES

A trimmer tummy doesn't have to be a pain.
Drop up to 2 sizes* in 3 effortless treatments
with FDA-cleared UltraShape ultrasound.

NO DOWNTIME • NO SIGNS OF TREATMENT
• INITIAL RESULTS AS EARLY AS 2 WEEKS

ULTRA EASY • ULTRA PAINLESS

UltraShape

Ask us about UltraShape today!
Visit UltraShape.com to learn more.

*Initial results may vary. Consult your healthcare provider.

SYNERON • CANDELA

The ideal UltraShape® candidate is an individual dedicated to a healthy lifestyle with troublesome areas of fat that are resistant to diet and exercise. UltraShape® permanently destroys fat using focused ultrasound energy, targeting the stubborn fat cells beneath the skin surface and causing them to cavitate and mechanically rupture. Once ruptured, the fat cells are permanently destroyed and the contents absorbed and cleared by the body.

Three treatments spaced two weeks apart are recommended for ideal results. Our patients have experienced an average of 1-2 inches of reduction of their waistline! From June 1, 2017 through August 31, 2017, receive \$500 off of your package of 3 treatments. A consultation with Dr. Gill will help you determine if this treatment is right for you. Please call 239-594-9100 to schedule your appointment!

Take advantage of no down time ThermiSmooth wrinkle tightening treatments this summer!

THERMiSmooth™

ThermiSmooth™ is a procedure performed by our licensed aestheticians at the Aesthetic Surgery Center, utilizing the ThermiRF™ Radiofrequency skin tightening technology. During a series of 4 weekly sessions, a temperature regulated probe is applied externally to the skin in order to heat the skin to the desired level (42-44°C). Heating of the skin to this temperature induces skin tightening by collagen contraction and remodeling, as well as long term stimulation of collagen production. Results are seen 2 to 12 months after the series of 4 treatments. A maintenance treatment every 6 months can help improve results further and have preventative benefit in terms of preventing development of fine lines and wrinkles.

Our patients have seen improvements in fine upper lip lines and tightening of crepey skin around the eyelids. All with no downtime! Please call 239-594-9100 to schedule your appointment with Katherine, our licensed medical aesthetician!
