## A Statement Regarding Covid-19

---

At the Aesthetic Surgery Center and Skin Spa, we are committed to taking every precaution to provide the safest possible treatment environment. We are currently not performing any cosmetic consultations, injectable procedures, laser treatments, Skin Spa services, or cosmetic surgical procedures. This is to preserve PPE as well as to maintain social distancing for you and for our staff. The only patients we are seeing at this time are those who require urgent, medically necessary attention. For these patients, we are strictly adhering to all CDC guidelines and screening all patients for travel history and Covid-19 symptoms prior to their appointments.

We will continue to keep you abreast of the latest developments in the plastic surgery world through our practice website, Facebook/Instagram accounts, and monthly email newsletter.

We will be fully operational as soon as it is deemed safe. Thank you for your understanding and support. We wish you and your family good health during this time.

---

# 3 WAYS TO BATTLE THE *DROOP*

## *TUMMY TUCK*

NO MORE  
STOMACH  
DROOP

Many individuals seek a smoother and firmer abdomen through a tummy tuck. A tummy tuck is very successful at achieving this goal. Exercise and diet alone cannot eliminate stretch marks, loose skin, stubborn fat, or tighten the abdominal muscles.

NO MORE  
EYELID  
DROOP

## ***BLEPHAROPLASTY***

The problem is the accumulation of fatty tissue which causes “baggy” eyelids. This is frequently present in both the upper and lower eyelids. Initially, the bags are noticeable only on awakening in the morning. As the problem becomes more severe, this puffy look persists throughout the day.

# *PERMANENT MAKEUP*

by Candis in the Skin Spa

NO MORE  
MAKEUP  
DROOP

Candis is a knowledgeable and resourceful licensed aesthetician and permanent makeup artist. She strives to meet her client's needs and desires, and her passion is making people feel great about themselves inside and out.
