*INTRODUCING
NOW FDA-APPROVED*

Restylane

KYSSE

Restylane® Kysse is a lip filler in the Restylane family of products that was FDA approved in April 2020 for lip augmentation. It is a hyaluronic acid based filler formulated with XpresHAn Technology™, which refers to Galderma's stabilization technology that delays degradation of the product. Restylane® Kysse is designed to provide shape and volume to the lips. It can also give some improvement to vertical lipstick lines above the lips. Results submitted to the FDA show that the filler can last up to 1 year. For those who seek fuller, more supple lips, or those looking to treat signs of aging of the lips, Restylane® Kysse gives a viable option that may be longer lasting.

AESTHETIC SURGERY CENTER
IS HAPPY TO ANNOUNCE THAT WE ARE
NOW OPEN

We reopened for all elective procedures effective May 4th, 2020. We are currently implementing several Covid-19 related protocols for your and our safety.

SOME OF THESE PRECAUTIONS INCLUDE BUT ARE NOT LIMITED TO:

- Covid-19 screening questionnaires and skin temperature checks
- Use of appropriate PPE
- PCR Covid-19 nasopharyngeal swab testing prior to elective surgeries
- Strict sanitization protocols
- Trying to comply with social distancing to the extent possible

Please understand that these measures may be inconvenient, but we believe them to be in the interest of safety as we navigate through this re-opening process. We appreciate your support of our practice and look forward to seeing you in our office and Skin Spa!
