Contouring the jawline can involve many components and careful analysis. Lifting the jowls, placing a prejowl chin implant, and buccal fat reduction were used by Dr. Agarwal to treat this 66 year old gentleman's genetically short neck, deficient chin projection, and heavy jowls.

At 8 months post-op, his jawline and neck match his youthful upper face. There is no alteration in his hairline and notice how he still looks masculine and refreshed. Plastic surgery for men can be undetectable when performed well. This is a growing segment of our practice. When women have procedures done to look more youthful and vibrant, men naturally want to match their rejuvenated appearance.

Please call 239-594-9100 to schedule your facelift consultation with one of our plastic surgeons.

Vaser® hi definition liposuction is an ultrasonic technology used by Dr. Ross at the Aesthetic Surgery Center to break up fat deposits, prior to removing them through liposuction cannulas. Liposuction is highly dependent on the surgeon's skill and artistic vision, as it is a form of body sculpting.

If you have stubborn areas of fat excess that are resistant to diet and exercise, please call 239-594-9100 to schedule your consultation with Dr. William Ross.

Please join us in welcoming Ilaria Deidda, Licensed Aesthetician, Permanent Makeup and Medical Tattoo Artist to the Skin Spa at the Aesthetic Surgery Center!

Born of Italian descent, Ilaria has international training and experience. Ilaria began her travels at the early age of 19, with the pure intention of learning a new language...English! Once she embarked upon this journey, she continued her personal and professional growth. In 2010, Ilaria graduated from the Sydney Beauty and Dermal Institute in Sydney, Australia. She specialized in Laser and IPL skin rejuvenation procedures, and soon after became a medical aesthetician. Ilaria worked in laser clinics and med-spas in Australia until she relocated to the United States in 2015...for Love! Since 2015, she has continued to work as a licensed aesthetician.

In 2017, Ilaria began training as a Permanent Makeup and Medical Tattoo Artist, and in 2018, she opened her own clinic in Missouri.

Since relocating to Naples in 2021, she now focuses her talents on providing customized skin treatment plans and advanced skin rejuvenation procedures. In addition, she also devotes her time to providing permanent makeup and medical tattoo services to women and men of all ages, with extra specialization in areola tattooing post-mastectomy.

Ilaria Deidda's education and attention to detail is what sets her work apart from others. She truly enjoys helping women and men regain and restore their confidence by looking and feeling younger.
