1175 Creekside Parkway, Suite 100, Naples, FL 34108 | (239) 594 9100 | www.aestheticsurgerycenter.com

Why do younger individuals sometimes benefit from neck contouring? Genetically, sometimes we have a deficient chin or excess fat deep to the muscles under the chin, regardless of being physically fit. Fortunately, surgical chin and neck contouring can be performed on any adult, with incredibly rewarding results

On this 28 year old woman, Dr. Agarwal performed superficial and deep neck contouring in addition to chin augmentation. The combination of procedures resulted in a better profile and more defined jawline. The patient has increased confidence and self esteem and will be able to enjoy these results for many years to come.

Plastic surgery of the face and neck need not wait until later in life. If you have genetic features that you would like to see improved, please contact our office at 239-594-9100 for a consultation.

Breast augmentation and breast implant replacement are some of the most popular surgeries performed by Dr. Casey Holmes. The size of the implants, placement under/above the muscle, whether to lift at the time of implant placement are just some of the questions that Dr. Holmes will answer during your individualized consultation.

If you are interested in improving your self-image and confidence with a breast enhancement procedure, please call 239-594-9100 to schedule your consultation with Dr. Casey Holmes. He will customize a treatment plan to help you achieve your goals.
