Facial rejuvenation by Dr. Agarwal

Facial rejuvenation by Dr. Agarwal

This is a 57 year old woman who asked facelift specialist, Dr. Anurag Agarwal, for his opinion on ways to look a bit younger and more refreshed. Dr. Agarwal sought to rejuvenate the heaviness of her eyebrows and upper eyelids, fill the hollows under her eyes, and lift her cheeks, jowls and neck. She also wanted conservative nasal refinement. She is shown before and 7 months after Dr. Agarwal performed an endoscopic midface lift with outer eyebrow lift, Uplift™ lower face and neck lift with platysmaplasty, upper eyelid blepharoplasty, transconjunctival lower eyelid blepharoplasty, fat transfer to the tear troughs under her eyes, chin augmentation, rhinoplasty, and fractional CO₂ laser resurfacing of her lower eyelids. She is ecstatic with her results and feels her goals have been accomplished.

Dr. Casey Holmes used VASERÂ® liposuction to help this woman treat excess fatty tissues of her trunk and extremities. This is a photo of the immediate intra-operative result after liposuction of the flanks, axilla, full abdominal area, back area, inner thighs and inner arms.

Lipocontouring is a procedure that requires artistic vision and technical expertise, as it is a 3-D contouring procedure. Dr. Holmes's skilled hands can help you transform your body. Please call 239-594-9100 to schedule your VASERÂ® liposuction consultation!

Microneedling is one of the most popular procedures in our Skin Spa, and with good reason. It is a minimally invasive skin-rejuvenation procedure in which fine needles are used by our licensed aestheticians to puncture the skin, thereby triggering new collagen and elastin formation. Usually a series of micro needling sessions is best. The treatment improves skin texture and firmness, and helps to reduce scars, pore size and the appearance of fine lines.

We encourage you to seek treatment with one of our skilled aestheticians at our Skin Spa. Please call 239-594-9100 to schedule your skin rejuvenation service!
