

1 year after Revision Rhinoplasty for this gorgeous 43 year old woman!

She had a prior **rhinoplasty** performed elsewhere about 8 years ago, leaving her with a residual hump, poor tip definition, and mismatched columellar scar. She is shown before and 1 year after Dr. Agarwal performed a complex **revision rhinoplasty** using septal cartilage grafts to refine her nose, a transconjunctival lower eyelid **blepharoplasty**, and fat transfer to the tear troughs, cheeks, and nasolabial folds. She is ecstatic about the improvement in her nasal appearance and her smooth lower eyelid and cheek contour.

If you are interested in improving results of a prior rhinoplasty, please call 239-594-9100 to schedule your consultation.

ELECTIVE SUBMANDIBULAR GLAND REDUCTION

ANURAG AGARWAL, M.D., F.A.C.S.

AESTHETIC SURGERY CENTER

NAPLES, FL

239-594-9100

WWW.AESTHETICSURGERYCENTER.COM

Submandibular glands are salivary glands that normally are tucked up under the mandible (jaw). However, in some individuals they lie low in the neck, causing unsightly bulging. Dr. Agarwal will carefully reduce these during facelift surgery when indicated. There are numerous other salivary glands that compensate and produce enough saliva. These subtle details make the difference between an average necklift result and an outstanding one. If you click on the link below, you can watch a video where Dr. Agarwal explains and demonstrates the benefits of elective submandibular gland reduction when indicated.

Please join us in welcoming Brit Kersey, licensed medical aesthetician, to our Skin Spa team!

Brit was born and raised here in southwest Florida. She moved to Los Angeles after graduating High School on a musical theater scholarship. While living in California for the next 6 years, Brit had several modeling and performing jobs, which required her to learn how to properly care for her skin. This in turn stimulated her passion to pursue skincare as a profession. After returning to Florida, she completed her aesthetician training at the Florida Academy of Medical Aesthetics, becoming a licensed medical aesthetician in 2014.

After receiving her license, Brit initially worked in the Dermatology field. She then owned and operated a skin care business for 5 years in which her specialties included: Microneedling, High frequency heat treatments, Dermaplaning, Chemical Peels, Microdermabrasion and LED Light Therapy.

When she isn't doing something skin related, you can find Brit on Sanibel or Captiva Islands, shelling and/or spending quality time with her two beautiful children.

Please call 239-594-9100 if you would like to schedule a SkinSpa service with one of our skilled licensed aestheticians.
