Dr. Holmes performs another successful abdominoplasty, commonly known as a tummy tuck! This patient is shown before and 6 weeks postoperatively. Her scar is shown at an early stage, but will continue to mature and lighten over the course of one year. She can already see dramatic improvements in her abdomen and flanks.

This surgical procedure addresses excess abdominal skin and weakened muscles, often stemming from weight fluctuations, pregnancy, or aging.

One of its most compelling advantages is the restoration of a firmer and more toned abdomen, enhancing self-confidence and body image. Beyond aesthetics, abdominoplasty can alleviate discomfort associated with sagging skin and reduce the risk of skin infections and irritation in skin folds. Improved posture and enhanced core strength are additional perks, making daily activities more comfortable.

This is a transformative experience, providing not only aesthetic satisfaction but also significant physical and psychological benefits.

* All patients are unique and individual results may vary.

Body Rejuvenation Treatment WINTER BOGO SPECIAL!

Skin treatments for the body can help to restore a youthful, smooth complexion to your arms, legs, and torso. All too often, skin on the body can lose its healthy glow and can benefit from enhanced cell turnover and moisturization. At the Aesthetic Surgery Center, our aestheticians will perform a Himalayan Crystal Salt Glow first, which will exfoliate and remove any dry, dead skin. This is then followed by a Gemstone Clay Body Mask, in which the clay mud helps with skin hydration, detoxification, and rejuvenation. Both of these treatments are coupled with hot gemstone therapy using the TAJ mat.

The TAJ mat enhances your local circulation and relaxes your muscles and joints. The TAJ MAT uses Hot Gemstones, Far Infrared, Negative Ions, Photon Lights, and PEMF.

TAJ stands for Tourmaline, Amethyst, and Jade.

Each treatment includes:

- 1 A body treatment with both Himalayan Crystal Salt and Clay Body Mask
- 2 30 minutes of the TAJ 360 heat wrap
- 3 European Facial
- 4 Application of Firm & Tone Lotion with express Full Body Swedish Massage
- 5 Skin Medica Firm & Tone full size lotion for the body is included at no cost to take home for post-treatment care (Value of \$166.00)

If 1 session of the above treatments is purchased individually, price is \$650 per session (includes the facial, 30 minutes in the TAJ wrap, and the salt/mud body treatment).

AS A WINTER SPECIAL THROUGH FEBRUARY 28, 2023, IF YOU PURCHASE ONE TAJ BODY MASK TREATMENT AT REGULAR PRICE, YOU WILL RECEIVE A COMPLIMENTARY SECOND TREATMENT. THIS IS A \$650 SAVINGS OFF YOUR SECOND TREATMENT.

If you are interested in learning more about this body skin rejuvenation treatment or would like to treat yourself or your loved one to this Summer Special, please call 239-594-9100.

BODY WRAP TREATMENT

A common complaint that many individuals have is the appearance of dark circles under the eyes. This can be caused by a variety of factors, some treatable and some that are not.

Actual discoloration of the skin is difficult to eradicate. Most commonly this is related to the translucency of the thin skin in that area and ability to see the underlying blood vessels and muscles. However, if there is hollowing of the tear troughs and infraorbital rims (sometimes accentuated by prominent fat pads above the hollows), surgical treatment can be of benefit.

The patient shown above is 60 years old and had fat pads of the lower eyelids that bulged forward, hollowing off the tear troughs and infraorbital rims, and crepey lower eyelid skin. She is shown 5 months after Dr. Agarwal performed transconjunctival lower eyelid blepharoplasty to remove the excess lower eyelid fat pads, fat transfer to the tear troughs/infraorbital rims, and fractional CO2 laser resurfacing of the lower eyelids. She also underwent an Uplift™ lower face and neck lift and rhinoplasty.

Notice how the contour and transition from the lower eyelids to cheeks is smoother, dark circles have been reduced, and she looks more refreshed and less tired.

Please call 239-594-9100 to schedule your consultation for lower eyelid rejuvenation.
