

AESTHETIC SURGERY CENTER

ANURAG AGARWAL, MD, FACS | RICHARD W. MALONEY, MD, FACS | CASEY HOLMES, MD | JASON DUDAS, MD

1175 Creekside Parkway, Suite 100, Naples, FL 34108 | (239) 594
9100 | www.aestheticsurgerycenter.com

This is a 64 year old woman who had noticed jowls forming along her jawline near the corner of her mouth and looseness of her neck skin. She is shown before and after Dr. Agarwal performed an Uplift™ lower face and neck lift with platysmaplasty, submandibular gland reduction, buccal fat pad reduction, fat transfer to the prejowl indentations and chin, and fractional CO2 laser resurfacing of wrinkles around the mouth. She now has a smooth jawline and neck with a youthful neck angle and contour.

LOWER FACE AND NECK LIFT](#)

VASER liposuction with Renuvion skin tightening on table results!

Dr. Casey Holmes used advanced VASER liposuction technology with Renuvion skin tightening to perform high definition sculpting of this patient's waist and midsection. You can see the contour achieved while she is still on the operating table through small access incisions. Fat is removed using ultrasonic vibrations and liposuction, and then a Renuvion probe is inserted under the skin to heat the skin and tighten the loose skin. This is the perfect time to get your summer body ready for swimsuit season!

Rhinoplasty and chin implant by Dr. Agarwal

Rhinoplasty and chin implant by Dr. Agarwal

Rhinoplasty and chin implant results

Dr. Agarwal was fortunate to have been able to help this 32 year old woman deal with a lifelong history of having a very crooked nose. She wanted her nose to be straighter, her dorsal hump to be reduced with a gentle feminine curvature, tip refinement for a bulbous tip, and improvement of her nasal alar retraction (retracted nostrils).

She is shown before and 6 months after Dr. Agarwal performed a complex external rhinoplasty with homograft irradiated rib cartilage grafts, septoplasty, nostril reductions, and chin augmentation. The patient is thrilled with how her nose is now straight, tip and bridge are smaller and more feminine, her nostrils are no longer retracted upwards, and how she can finally breathe through the left side of her nose. The small chin implant also helped balance her profile and detract from the prominence of her nose.

P-Tiox by SkinCeuticals

P-Tiox is a peptide powered serum that helps reduce the look of contraction lines. It works synergistically with Botox Cosmetic, giving a glass skin radiance. We introduced this product in our practice earlier this year and our patients' feedback about this particular skin care product has been overwhelmingly positive. They have said that it noticeably improves fine lines and their skin's glow.

Please call 239-594-9100 or stop by our office to incorporate this exciting new product into your skin care regimen.
